“A True Country Show”

In 2016, the Wentworth Show Society formed a building sub-committee under the leadership of committee member, David Dawes and fundraising and plans for a new Showgrounds Pavilion began.

We consulted CPM with the plans and ideas and Graham Blaby was very helpful and constructive, working basically with novices.

Subsequently, the Wentworth Shire Council (who were project managers due to partial government funding), awarded the contract to CPM following a public open tender, and demolition of the old pavilion and construction of the new pavilion commenced in 2019.

With our committee, under the new leadership of Marcus Moore, working in conjunction with the Wentworth Shire Project Manager, we found CPM kept us informed throughout the building process, with attention to detail and all variations were handled competently.

Construction during COVID added additional difficulties and we commend CPM for their handling of this and on a job well done.

The Wentworth Show Society would gladly recommend CPM as building contractors.

M. Jackson
Wentworth Show Society Building Sub-committee.
